

ARP ESSER Health and Safety Plan

Guidance & Template

Section 2001(i)(1) of the American Rescue Plan (ARP) Act requires each local education agency (LEA) that receives funding under the ARP Elementary and Secondary School Emergency Relief (ESSER) Fund to develop and make publicly available on the LEA's website a *Safe Return to In-Person Instruction and Continuity of Services Plan*, hereinafter referred to as a *Health and Safety Plan*.

Based on ARP requirements, 90 percent of ARP ESSER funds will be distributed to school districts and charter schools based on their relative share of Title I-A funding in FY 2020-2021. **Given Federally required timelines, LEAs eligible to apply for and receive this portion of the ARP ESSER funding must submit a Health and Safety Plan that meets ARP Act requirements to the Pennsylvania Department of Education (PDE) by Friday, July 30, 2021, regardless of when the LEA submits its ARP ESSER application.**

Each LEA must create a Health and Safety Plan that addresses how it will maintain the health and safety of students, educators, and other staff, and which will serve as local guidelines for all instructional and non-instructional school activities during the period of the LEA's ARP ESSER grant. The Health and Safety Plan should be tailored to the unique needs of each LEA and its schools and must take into account public comment related to the development of, and subsequent revisions to, the Health and Safety Plan.

The ARP Act and U.S. Department of Education rules require Health and Safety plans include the following components:

1. How the LEA will, to the greatest extent practicable, implement prevention and mitigation policies in line with the most up-to-date guidance from the Centers for Disease Control and Prevention (CDC) for the reopening and operation of school facilities in order to continuously and safely open and operate schools for in-person learning;
2. How the LEA will ensure continuity of services, including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services;

3. How the LEA will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policy on each of the following safety recommendations established by the CDC:
 - a. Universal and correct wearing of [masks](#);
 - b. Modifying facilities to allow for [physical distancing](#) (e.g., use of cohorts/podding);
 - c. [Handwashing and respiratory etiquette](#);
 - d. [Cleaning](#) and maintaining healthy facilities, including improving [ventilation](#);
 - e. [Contact tracing](#) in combination with [isolation](#) and [quarantine](#), in collaboration with State and local health departments;
 - f. [Diagnostic](#) and screening testing;
 - g. Efforts to provide COVID-19 [vaccinations to school communities](#);
 - h. Appropriate accommodations for children with disabilities with respect to health and safety policies; and
 - i. Coordination with state and local health officials.

The LEA's Health and Safety Plan must be approved by its governing body and posted on the LEA's publicly available website by July 30, 2021.* The ARP Act requires LEAs to post their Health and Safety Plans online in a language that parents/caregivers can understand, or, if it is not practicable to provide written translations to an individual with limited English proficiency, be orally translated. The plan also must be provided in an alternative format accessible, upon request, by a parent who is an individual with a disability as defined by the Americans with Disabilities Act.

Each LEA will upload in the eGrants system its updated Health and Safety Plan and webpage URL where the plan is located on the LEA's publicly available website.

The ARP Act requires LEAs to review their Health and Safety Plans at least every six months during the period of the LEA's ARP ESSER grant. LEAs also must review and update their plans whenever there are significant changes to the CDC recommendations for K-12 schools. Like the development of the plan, all revisions must be informed by community input and reviewed and approved by the governing body prior to posting on the LEA's publicly available website.

LEAs may use the template to revise their current Health and Safety Plans to meet ARP requirements and ensure all stakeholders are fully informed of the LEA's plan to safely resume instructional and non-instructional school activities, including in-person learning, for the current

school year. An LEA may use a different plan template or format provided it includes all the elements required by the ARP Act, as listed above.

* The July 30 deadline applies only to school districts and charter schools that received federal Title I-A funds in FY 2020-2021 and intend to apply for and receive ARP ESSER funding.

Additional Resources

LEAs are advised to review the following resources when developing their Health and Safety Plans:

- [CDC K-12 School Operational Strategy](#)
- [PDE Resources for School Communities During COVID-19](#)
- [PDE Roadmap for Education Leaders](#)
- [PDE Accelerated Learning Through an Integrated System of Support](#)
- [PA Department of Health - COVID-19 in Pennsylvania](#)

Health and Safety Plan Summary: **Centennial School of Lehigh University**

Effective Date: 08/24/2022

Date of Last Review: 08/12/2021; 03/1/2022; 08/03/2022

Date of Last Revision: 08/12/2021; 03/1/2022; 08/03/2022

1. How will the LEA, to the greatest extent practicable, support prevention and mitigation policies in line with the most up-to-date guidance from the CDC for the reopening and operation of school facilities in order to continuously and safely open and operate schools for in-person learning?

Centennial School's goal is to provide full-time in-person learning for our students in the safest manner possible. We will continue to utilize guidance from the CDC and PA Department of Health (PA DOH) to inform our decisions for health and safety planning. A layered mitigation approach is recommended and we plan to incorporate mask wearing when community or building data indicate a substantial level of spread, physical distancing, enhanced ventilation, handwashing and respiratory etiquette, staying home when sick and getting tested, contact tracing in combination with quarantine and isolation, and cleaning and disinfection procedures. As guidance and resources from the PA DOH become available for screening and testing, we will attempt to incorporate this layer of protection as well. We will continue to use state or local guidance to implement appropriate prevention and mitigation protocols in response to the level of community spread in our local community. This plan will be monitored, revised, and updated as federal, state and local orders evolve.

2. How will the LEA ensure continuity of services, including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services?

Centennial School offers a robust academic curriculum where teachers provide high-quality instruction to ensure students' academic needs are met. Academic progress monitoring occurs on a regular basis. All students are assigned a case manager who monitors their progress and communicates with the families on a weekly basis via emails, hand written notes, phone conversations, and voicemails. A positive rapport is established between the case managing teacher, the student, and the family to provide opportunities for ongoing communication regarding needs and concerns. Case managers will work directly with program coordinators, the director, and the school counselor to identify the necessary supports that will assist the student in managing school and personal challenges they may be experiencing. The school counselor may reach out to community based agencies to support students when permissions to share information are acquired. Centennial School counseling staff

developed a [website](#) for families to access a variety of resources to address social emotional wellness. Additionally, the [PA Mental Health and Well Being website](#) is another resource for families.

A full-time school nurse is employed through Centennial and a crucial member of the Health and Safety Plan team. Centennial School nurse will collaborate with Lehigh University Employee Health Case Manager and also Bethlehem Area School District school nurse staff members.

Regarding teachers' social emotional wellness, Lehigh University offers resources through the [Employee Assistance Program](#) to assist employees in meeting their needs. The Employee Assistance Program is managed by Integrated Behavioral Health and is available to eligible employees and any of their dependents who could benefit from their services.

3. Use the table below to explain how the LEA will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policy on each of the following safety recommendations established by the CDC.

ARP ESSER Requirement	Strategies, Policies, and Procedures
<p>a. Universal and correct wearing of masks;</p>	<p>Centennial School will comply with all Federal and State mandates regarding face coverings. When making its decision regarding the wearing of face coverings, the administration will take into account recommendations by the CDC, PA DOH, PDE and its local health care advisors. The community will be notified of any changes. Wearing a face covering may be subject to change at any time during the school year starting with the first day of school and ending with the last day of school based upon Centennial and community COVID-19 cases.</p>
<p>b. Modifying facilities to allow for physical distancing (e.g., use of cohorts/podding);</p>	<p>Classrooms will maintain physical distancing practice per recommendations of the CDC and/or PA DOH to the maximum extent feasible during periods of high community transmission.</p> <p>Breakfast will be served by staff at the kitchen counter and students will return to</p>

	<p>their homeroom to eat. Lunch will be served to each classroom.</p> <p>Floor markers will be present outside of bathrooms and in the gym where dismissal takes place to assist students in knowing where to appropriately stand while they wait in line.</p>
<p>c. Handwashing and respiratory etiquette;</p>	<p>All individuals will sanitize/wash hands frequently (e.g., upon arrival, prior to eating, after eating, after recess, use of bathroom).</p> <p>Hand sanitizer will be available in all classrooms and office spaces. Hand sanitizer will be used before and after gym class and when using technology.</p> <p>Signs will be posted in highly visible locations to promote everyday proactive practices (e.g., bathrooms, classrooms).</p> <p>Students and staff will be encouraged to use proper respiratory etiquette.</p>
<p>d. Cleaning and maintaining healthy facilities, including improving ventilation;</p>	<p>Teachers will clean desks on a frequent basis when student groupings change and/or at the end of each class period. Desks will be cleaned before and after eating.</p> <p>Lunch: A cart will be used to distribute lunches to students in their homerooms. All lunch will be served and consumed in the classrooms.</p> <p>Facilities: Water fountains will not be accessible; water-refilling stations will be used to fill water bottles. Students and staff are encouraged to bring a refillable water bottle to school daily.</p>

	<p>Ventilation: Centennial School will routinely check and monitor ventilation systems to ensure they are operating properly.</p>
<p>e. Contact tracing in combination with isolation and quarantine, in collaboration with the State and local health departments;</p>	<p>Centennial School will participate in contact tracing if required. The Centennial School nurse will collaborate with Lehigh University Employee Health Case Manager and also Bethlehem Area School District nurse staff members.</p> <p>Visitors/Volunteers/Outside organizations may be limited from entering a district building based on level of community/building spread.</p> <p>Individuals without a medical provider may contact one of the following local public health agencies:</p> <ol style="list-style-type: none"> 1. Lehigh Valley Health Network: E-Visits for coronavirus (COVID-19) exposure. 2. St. Luke's University Health Network: Hotline for Coronavirus COVID 19 Inquiries 1-866-STLUKES (785-8537), option 7 OR coronavirus@sluhn.org
<p>f. Diagnostic and screening testing;</p>	<p>Everyone is encouraged to self monitor for illness. Students and staff are encouraged to remain home if ill.</p> <p>Centennial will provide a COVID-19 screener for daily use for students and staff.</p> <p>Based upon the community and building level spread, a wellness screener for staff, visitors, and volunteers may be utilized during the school year.</p>

	<p>Any students or staff who are experiencing symptoms of COVID-19 will be asked to stay home.</p> <p>For anyone testing positive, we are following CDC guidance and requiring five days of isolation followed by five days of mask wearing.</p> <p>Staff testing positive are required to contact Christine Wolfe at 610-861-8080 ext. 23504 or Christine.Wolfe@lvhn.org so she can provide additional guidance and accurately track case counts.</p> <p>Parents are required to notify the nurse with a diagnosis of COVID-19.</p>
<p>g. Efforts to provide vaccinations to school communities;</p>	<p>COVID-19 vaccination clinics will be available as needed, partnering with our local health networks.</p>
<p>h. Appropriate accommodations for students with disabilities with respect to health and safety policies; and</p>	<p>Additional accommodations for staff at high-risk for severe illness for COVID-19 will be considered on a case by case basis.</p> <p>Individualized decisions regarding programming for students with disabilities will be made in accordance with 504 and IDEA requirements.</p> <p>Student case managers will communicate weekly with families. IEP meetings will be called to address changes in programming and health/medical accommodations. Case managers will communicate specific student plans with school teams.</p>
<p>i. Coordination with state and local health officials.</p>	<p>Members of the Health and Safety team will monitor community transmission rates on a weekly basis and stay current with recommendations from the PA DOH and</p>

	<p>the CDC and through participation on the Emergency Preparedness Council Colonial IU 20.</p> <p>Revisions and changes to the Health and Safety Plan will reflect the recommendations and consider the factors in the local area.</p>
